Confirmation No. 1427
Attorney Docket No. D9446

CLAIMS LISTING

[c1] (Currently Amended) An apparatus for hanging items comprising: a body having a recess; a hanging member with a first end and a second end; said hanging member rotatably mounted within said recess on a rotation axis between said first end and said second end; and an angular space located at [a] said first end of said hanging member between a floor of said recess and an interior surface of said hanging member.

[c2] (Original) The apparatus of claim 1 wherein said body also contains a channel for a support member.

[c3] (Original) The apparatus of claim 2 wherein said support member is a belt.

[c4] (Withdrawn) The apparatus of claim 2 wherein said support member is a penetrating fastener.

[c5] (Original) The apparatus of claim 1 wherein said rotation axis is a pin.

[c6] (Original) The apparatus of claim 1 further comprising a finger extending from said hanging member.

[c7] (Currently Amended) A portable system for hanging items comprising: a support member; a body; said body containing a channel for receiving said support member; said body further containing a recess; a hanging member with a first end and a second end; said hanging member rotatably mounted within said recess on a rotation axis between said first end and said second end; and an angular space located at [a] said first end of said hanging member between a floor of said recess and an interior surface of said hanging member.

Application No. 10/604,428
